

**MEMORIALS**

It is the policy of the board to recognize and reward merit in performance, in dedication, in perseverance, in excellence of any nature to the Goffstown schools, and especially in service to the children thereof.

This recognition may be initiated by the Board, by administration, by staff groups, by student groups (such as student council), by parent-teacher groups, or by other citizens groups, but must be approved by the School Board. Each such suggestion must be judged on its own merits. However, no person or group shall install any nature of memorial to itself.

It is the policy of the Board that any staff member who has served the Goffstown School District for 20 years, or any staff member who retires while serving the Goffstown School District in any year after fifteen full years of service herein, will have recognition of that service.

We know that staff excellence lives on in all the lives that they touch. However, we also know that memories fade, and that reminders may not only restore their brilliance, but may inspire others to emulate the honored ones. Inspiration enhances education.
