

STUDENT INSURANCE PROGRAM

The Board recommends that all students have either personal health or school accident insurance for their and their parents' protection.

Students participating in interscholastic athletics shall be required to have accident insurance. Proof of accident insurance and/or personal health insurance is necessary if a student is to take part in interscholastic sports.

The District makes available a student accident insurance program. The student's parents/guardian must pay for the designated coverage. The District does not finance student accident coverage.

Proof of health insurance and/or accident insurance must be provided for all overnight field trips.
