

SAU #19 Superintendent Of Schools To Offer A Series Of Free Informational Workshops To District Residents

The schools of SAU #19 are a vital and integral part of the communities of Goffstown, Dunbarton, and New Boston. Are you interested in learning more about how the schools work, what the budget process is, or what the state and federal laws are surrounding schools? Join Superintendent of Schools Stacy Buckley in a five night workshop series that will answer all of these questions for you!

Did you ever wonder what a student's day is like? How we use technology in our classrooms? What we teach our children in school? Superintendent Buckley will host a series of one and a half hour workshops to help the community learn more about our schools. The sessions will be held once a month, each with a different topic, and for a culminating event in February- you will have an opportunity to shadow a student at Goffstown High School to see what you learned in action!

The dates and topics are as follows:

Thursday, September 22: An overview of School Administrative Unit #19

Thursday, October 20: The budget and the budget process in each of the three communities

Thursday, November 17: Support services including guidance, special education, 504

Thursday, December 15: Technology, curriculum, course offerings, and athletics

Thursday, January 19: NCLB, Federal and state laws, contracts, supervision and evaluation

February: Shadow a student at GHS

The sessions will be held at Goffstown High School and will be open to any resident of Goffstown, Dunbarton, and New Boston. The sessions will run from 6:30-8:00 on the designated evenings. You may attend one or all sessions! In order to participate in the shadow day you must attend at least one of the previous workshop sessions. While pre-registration is not required, in order to ensure that materials are available for everyone it would be helpful to **pre-register by calling the SAU #19 office at 497-4818.**
