"The best place to go with a child is within their imagination."

My Role:

Speech/Language Pathologist, MS CCC/Sp

About Me:

I have worked in the Goffstown School District for 25 years. Prior to that, I worked in Rutland, Vermont for 10 years in an educational/rehabilitation facility. I moved to New Hampshire with my family in 1982 which was exciting both personally and professionally. My expertise lies in working with students in their preschool and kindergarten years. I have three grown children, a son and two daughters. I also have five young grandchildren, 3 grandsons and 2 granddaughters. They all enjoy camping, kayaking, and hiking with their Nana. And then of course there is Murray...a 14 pound orange tabby cat who came to me as a stray four years ago and has remained ever since.

Parent Information:

Parents of children who receive speech and language services are encouraged to contact my office if they have any concerns regarding their child's therapy and progress. Remember, you are an important member of our team.
