

Dear New Third Graders,

Welcome to Mr. Mudrick's third grade family. In September, you will begin an exciting adventure leading to a fun packed year of learning and growing.

We will begin the year talking about our annual third grade Michaelmas Fair. We will make crafts and baked goods to sell to other classes and families. It is the best day! This year, we will learn cursive, and the multiplication facts. We will do a Native American unit and visit an Indian Museum. There may even be a surprise field trip. We will learn about the Presidents, travel through all the States, and learn the capitals. We will go on an exciting Whale Watch at the end of the year. We will celebrate all of the holidays and even have Pie(PI) Day! And yes, Munchkins on Fridays.

I will have most of the supplies that you are going to need. You may want to buy a durable homework folder. You may bring any supplies that you want. Please remember to save 2 or 3 items from summer vacation. On the first day of school, bring in your items and we will share our activities and adventures. I can't wait to find out all about you.

Enjoy the rest of your summer vacation. Get ready for an exciting year in third grade. I will see you on September 3, 2024.

Mr. Mudrick
